For Immediate Release

Tim Hortons Comes to Kelowna Int'l Airport

Tim Hortons coffee and food services will soon be available for customers at Kelowna International Airport.

Construction on the new restaurant will begin October 1st and is expected to be open for business in time for the Christmas travel season. The Airport's Tim Hortons restaurant will be located in the current Skyway Restaurant serving passengers before they go through security.

"This is a perfect fit for us and the airport," says David Mah, Skyway Gourmet Ventures President. "We look forward to the opportunity to offer customers this expanded food and beverage service." Skyway Ventures has the food services contract at Kelowna International Airport which also manages the Skyway Lounge, the Skyway Café and Bar and the Airport's WhiteSpot Restaurant and Lounge.

"Our customers have indicated they want branded food services" says Airport General Manager Sam Samaddar. "We are pleased to welcome Tim Hortons to our facility. As a restaurant, Tim Hortons has a long, proud tradition in Canada and is committed to providing customers with quality food at reasonable prices – two concepts that I believe our passengers will appreciate."

Tim Hortons is Canada's largest quick service restaurant chain. Founded in 1964 as a coffee and donut shop, Tim Hortons has evolved to meet consumer tastes, with a menu that now includes premium coffee, flavored cappuccinos, specialty teas, home-style soups, fresh sandwiches and fresh baked goods.

While construction is taking place for Tim Hortons, temporary food services with a limited menu will be available in the lounge; alternatively full service menu is available post Security at the WhiteSpot Restaurant in the Departures room along with Skyway Café.

Kelowna International Airport is Canada's 10th busiest airport serving 1.4 million passengers in 2007. For more information on airport news and destinations, visit the airport's website at www.ylw.aero.
