Dear Proprietor / Property Owner / Resident,

Re: Central Okanagan Multi-Modal Corridor - Open House

In recognition of growing traffic concerns, City Council has given direction to staff to conduct a planning study of a multi-modal corridor to meet travel demands for all modes of travel. As the first step in improving the traffic flow along Highway 97 and collecting roadways, we have initiated a corridor planning study between Spall and McCurdy Roads and future roadway alignment to UBCO. Rails with Trails, Bus Rapid Transit (BRT) and other potential mobility options will be considered as part of this study.

We would like to invite you to attend the first public Open House for this project. The City will provide information on the scope of the study, planning considerations, environmental overview, and its timeline. Criteria for evaluating options will be presented which will be asking the public to prioritize what is important when selecting a preferred alignment for this future corridor.

Date: Tuesday, December 12, 2006
Time: 4:00 – 8:00 p.m.
Location: Ramada Lodge – Cedar Room
2170 Harvey Avenue

Presentation boards showing the facets of the project will be available and representatives from the City of Kelowna and our consultant, Urban Systems Ltd. will be on hand to answer questions.

Should I be able to answer any questions in the meantime please contact me at 469-8569 or communications coordinator, Kari O'Rourke at 469-8485.

Yours truly,

Andrew Albiston
