

# PRE-PLANNING

Pre-planning one's cemetery plot provides the assurance of your wishes for a particular option or location within our cemetery for future needs. Should your need change, our easy and convenient refund policies allow you to either exchange your decision or receive a refund. Your first decision is whether you wish cremation or traditional burial. Some families may choose both. Kelowna Memorial Park Cemetery can accommodate various wishes with options.

Cremation options include:

**Garden Niche Wall:** This option is for an individual or an individual with a companion and includes opening/closing and a bronze wreath name plate.

**Companion or Family cremation burial plots:** Family plots allow up to six individual family members who can be memorialized on a bronze family memorial with individual name plates.

**Scattering Garden and/or Memorial Wall:** Some families may wish for a ceremonial scattering within our garden and honour their loved one with a bronze name plate on the memorial wall. Others may prefer to scatter the remains elsewhere, however wish to have a place for reflection within the cemetery on the Memorial Wall.

Burial options include:

**Mausoleum crypt:** An above ground compartment in the Promontory Garden. This option includes an open/close and a standard bronze name plate.

**Lawn Crypt:** An in-ground option not requiring a mandatory liner.

**Traditional burial plots:** Requires a mandatory liner. Burial plots are located throughout the Cemetery allowing for a flat or above ground memorial. Most of our burial options allow both cremation and traditional burials within the same plot.

**Family Estate:** A family estate is a large plot (4 metres by 4.5 metres), with fencing, granite bench, landscaping, and a memorial foundation accommodating a large upright memorial. The plot allows up to 20 family members with 2 double-depth lawn crypts for traditional burial and 8 companion in-ground cremation plots. This significant tribute may be used by a family or as an individual memorial.

Other options to remember by:

**Adopt a Tree** provides an opportunity to give a living legacy and preserve our natural heritage. We have many different varieties of trees to select throughout the cemetery in memory of a loved one. An inscribed memory stone will be placed at the trunk of your adopted tree.

**Adopt a Bench** is another opportunity to honour a loved one or friend. Different types and styles are available to choose from. Each bench will have a bronze memorial.
