Purpose

To provide information on Boarding Houses, Lodging Houses or Group Homes (Minor).

Boarding House and Lodging House

Boarding Houses and Lodging Houses are defined in the City of Kelowna - Zoning Bylaw 8000 –as a building in which an owner or manager supplies accommodation for their family and sleeping unit accommodation for remuneration. It may or may not include meal services. This category includes lodges for senior citizens but does not include hotels, motels, temporary shelter services, congregate housing or bed and breakfast homes.

This bulletin is for informational purposes only. Please be sure to consult the relevant City of Kelowna bylaw.

Single Family Dwelling (SFD); If a SFD is to be used as a boarding home per British Columbia Building Code (BCBC) section 9.10.9.14(2) there must be a maximum of **eight (8)** lodgers AND the sleeping units may not have cooking facilities AND the building must be the proprietors place of residence. This could include an assisted living residence, but only IF not more than **two (2)** "prescribed services" (as defined in the Community Care and Assisted Living Regulations) are provided. Sleeping rooms in a SFD do not require 45 minute fire separation.

Additional items may be required at the discretion of City Staff. Permits must be obtained and all related inspections completed prior to any occupancy.

Other Than Single Family Dwelling (SFD); IE If over **eight (8)** lodgers are to be housed OR this use is NOT in a SFD where the proprietor also resides; *Suites and sleeping rooms* in boarding and lodging houses shall be separated from adjacent rooms and suites by a fire separation having a fire resistance rating of not less than 45 min. *Corridors* adjoining suites in boarding and lodging houses are considered public corridors. As per BCBC Article 9.9.9.2 a public corridor requires two exits. These exits shall be independent of each other and be placed remote from each other along the path of travel between them. One exit may lead through a lobby (see BCBC 9.9.8.5). *Doors* through fire separations may be on hold open devices that release on a signal from a smoke detector as described in Appendix B of NFPA 80 "Fire Doors and Fire Windows". *Mechanical services* passing in or through rated assemblies shall comply with BCBC 9.10.9
