## Introduction

The goal of the [Kelowna Fire Department](#) is to continue providing prompt, professional, effective fire protection and public safety services to all residents and visitors to Kelowna; including fire suppression and rescue services; fire prevention; fire safety inspections; fire training; first medical responses; hazardous material response; specialty rescue; pre-incident planning; dispatch and emergency management.

There are also opportunities to serve as a paid-on-call (volunteer) firefighter with the Kelowna Fire Department. For more information on the paid-on-call program, visit the [Fire Department's Career & volunteer firefighters' page](#).

We are looking for a number of responsible and dedicated Firefighters to combat, extinguish and prevent fires including search and rescue and administering first aid. Recruitment and hiring of career firefighters is handled through an eligibility list selected after a rigorous recruitment process. We need to fill firefighter positions from an eligibility list commencing as early as spring of 2026.

There are a number of phases to the recruitment process, starting with submission of an Online Application to our posting on the [National Testing Network](#) (nationaltestingnetwork.com) firefighter job site for the [Kelowna Fire Department](#) job posting.

Applicants will then complete the firefighter written testing portion and a pre-recorded video interview directly through National Testing Network. Applicants wishing to be considered for our recruitment must have their application, written testing and video interview completed **by August 31, 2025**.

This is a general guideline for the Kelowna Fire Department hiring process and it may change based on operations.
