

Boil Water Notice in Effect

Please be advised that consuming/using water from this source poses a health risk due to elevated turbidity.

Water taken from this source should be boiled prior to use for the following purposes:

Drinking, beverage preparation, washing and preparation of food, brushing teeth, making of ice and constitution of baby formula.

How to take precaution

- ▶ Bring water to a rolling boil for one minute and allow to cool before use
- ▶ Use an alternative water resource (e.g. bottled water)

Kelowna Water Utility will advise when the Boil Water Notice is lifted through website updates and media releases.
