

# Agriculture Plan Update Purpose

An agriculture plan focuses on a community's farm area to discover practical solutions to challenges, identifies opportunities to strengthen farming and contributes to agriculture and the community's long-term sustainability.

## Key Goals

- ▶ Develop clear policies that serve to protect and promote agriculture while preserving the character of the City of Kelowna.
- ▶ Identify opportunities to strengthen farming and develop agriculture as an economic driver.
- ▶ Increase the amount of, and access to, locally grown and produced food.
- ▶ Build resilience in communities against rising costs of food and risks from climate change.
