

TRAFFIC AND CONSTRUCTION MANAGEMENT

- Construction is scheduled to commence July 4, 2017, with anticipated completion in September 2017
- Hours of construction will typically be between 7am and 7pm. The intent is predominantly maintain two-way traffic on Lakeshore Rd. However single lane traffic will be required on occasion.
- Single Lane alternating traffic will be implemented at night for Bellevue Creek bridge repairs. Night work will be scheduled between 7:00pm – 7:00am. This should last approx. 4 weeks in late July into August.
- Collett Road left-turn movements onto Lakeshore will be assisted by traffic control personnel during peak hours. Motorists should expect delays.
- Access to local businesses will be maintained, and signed.
- Watermain tie-ins will be scheduled around business hours, in order to limit disruption of service.
