

SEKID Transition

- ▶ In order to access funding from federal and provincial sources irrigation districts must integrate with local governments
- ▶ During transition period customers will continue to receive bills from SEKID and contact SEKID with water-related questions
- ▶ The City of Kelowna will operate the domestic system as new water mains, pump stations and reservoirs are added. The system may be connected to SEKID's existing water sources during construction to ensure continuous service
- ▶ Official transition date is January 1, 2020
- ▶ Water rates for 2020 will be adopted by Kelowna City Council in 2019
