With the increase in use of ALPR cameras by the City of Kelowna and the RCMP, and to support the discontinuation of license plate decals, the ability to scan and read plates is essential. Your plate has been noted as defective/delaminated and requires immediate replacement.

Please contact your Autoplan/ICBC dealer to arrange replacement license plates. Once you obtain new plates and vehicle registration, please forward a copy to [parkingadmin@kelowna.ca](mailto:parkingadmin@kelowna.ca). Please include the **Bylaw Offence Notice number** to receive a one-time waiver\* of the bylaw penalty for obstructed license plates replaced **within 30 days** of the first Bylaw Notice. If you have a Residential Permit, please include the Permit Number in your email so we may update your permit.

In addition to potential bylaw fines, failure to replace your delaminated plates may subject you to additional fines for driving with a defective plate, as stated in Section 3.03 of the BC Motor Vehicle Act regulations. Drivers are responsible to replace lost, stolen, or damaged plates on their vehicles, along with keeping them clean and free of debris or face a fine of \$230.

If you have any questions or concerns, please contact City of Kelowna Parking Services at 250-469-8400.

**\*Penalty waiver pertains only to notices issued by City of Kelowna for the first obstructed plate bylaw violation and only for delaminated plates where the defective plates have been replaced within 30 days of first notification**
