

Build your own **FREE** air cleaner!

Concerned about the indoor air quality inside your home?

Come learn measures to remove contaminants like wildfire smoke, allergens, and pathogens from your indoor air.

New and expecting mothers, as well as older adults, are strongly encouraged to attend. Exposure to wildfire smoke can have negative effects on the health of you and your family.

Space is reserved for City of Kelowna residents. Please scan the appropriate QR code (or enter the appropriate URL) below to register.
